Production per cycle:	Every 15 minutes 1,0 Kg.
Weight:	25 kg
Stainless steel fixed bowl:	2,5lt
Stainless steel removable bowl:	2,5lt
Rotation speed:	63 RPM
Power:	400 W
Electrical connection	220-240V/ 1ph/ 50Hz

CODE: NEM-0038350250

KEY BENEFITS

- The touch of just one switch, will start a **fully automatic production** and **storage process**.
- A "clever" control board **automatically detects** the consistency of the ingredients being processed. Doesn't matter if you process gelato or sorbet or ice cream or frozen yoghurt or granita (slush).

KEY FEATURES

- Touch screen operated.
- The electronic board operates a multi-process control and when the preparation is ready it automatically starts a unique **storage cycle** allowing to keep the finished preparation in the machine as long as needed. Push a button and leave.
- The refrigeration and blending systems are designed for **long work cycles**.
- The **magnetic safety** device automatically stops the paddle when the lid is lifted.
- The blade is made of stainless steel with removable scrapers to ensure hygiene and strength.
- The machine body is entirely made of stainless steel.
- Comes with a large 2,5 Lt. capacity AISI 304 stainless steel removable bowl.
- **Air cooling**.
