

VILLA ST13 POWER FILLER

PSVVILLAST13

The images shown are for illustration purposes only and may not be an exact representation of the product

PRODUCT FEATURES

Table sausage stuffer using a simple and original technique, offering the user optimal service for a very low budget.

With a capacity of 13 liters (10 to 12 kg of meat), this professional sausage stuffer will find its place in butchery and delicatessen laboratories to advantageously replace the manual stuffer.

It has a cylinder with a removable flat and pivoting bottom, which makes it possible to load it without uncoupling it from the machine and facilitates its return to the working position

Stainless steel socle, cylinder and cover

Room saving

Tiltable cylinder, entirely removable

Single phase motor 240V

3 anodised aluminium nozzles
