

MODULAR REFRIGERATED DISPLAYS FOR WINE BOTTLES

GEMWL6222P

The images shown are for illustration purposes only and may not be an exact representation of the product

PRODUCT FEATURES

Stainless steel structure
 Silenced monoblock cooling units (gas R290)
 Ventilated refrigeration
 TOUCH digital control board
 Automatic defrost with electric heaters
 Automatic evaporation of condensate water
 Climatic class 4
 Door lock with key
 6000K white internal led light (2700K warm)
 Dimmer for LED lights intensity adjustment
 Color finish on request
BOTTLE-HANDLINGS NOT INCLUDED

The interior lighting system consists of a LED tube and the combined enchanting star-like effect of all the small lights reflects off the steel and glass and embraces the bottles.

The led light is as standard white 6000K and **on demand** warm 2700K; the light intensity can be adjusted with the remote control.
